Dear Kashyap Nirmal,

I believe I have already provided you with the IEEE instructions for reuse of IEEE copyrighted content in a dissertation/thesis. If you did not receive them, I have included them again here.

The IEEE does not require individuals working on a dissertation/thesis to obtain a formal reuse license however, you must follow the requirements listed below:

Textual Material

Using short quotes or referring to the work within these papers) users must give full credit to the original source (author, paper, publication) followed by the IEEE copyright line © [Year of publication] IEEE.

In the case of illustrations or tabular material, we require that the copyright line © [Year of original publication] IEEE appears prominently with each reprinted figure and/or table.

If a substantial portion of the original paper is to be used, and if you are not the senior author, also obtain the senior author's approval.

Kind regards,

M.E. Brennan
